

The Beaver Valley Dental Society

in cooperation with the Dental Society of Western Pennsylvania and The Academy of General Dentistry

2009 - 2010 Meeting Schedule

- September 24, 2009
Thursday Evening
- Dr. Elaine Berkowitz, "Military Dentistry in Iraq"**
SPONSOR: Hefren Tillotson (John Mackie), Henry Schein
Harold's Restaurant in Hopewell (724-375-8892- directions only)
- October 22, 2009
Thursday Evening
- Dr. Bobby Collins, "Ulcers from A to Z"**
SPONSOR: Mr. Cory Miller from Mass Mutual Financial Designs: Financial Retirement Strategies
JW Halls Restaurant, Hopewell Township (724-375-6860- directions only)
- November 12, 2009
Thursday Evening
with hygienists
- Dr. Steven Steinberg, "Understanding & Managing Dental Caries: a Modern Approach"**
SPONSOR: Care Credit, Brasseler
Shadow Lakes Country Club in Aliquippa (724-375-5511- directions only)
- December 10, 2009
Thursday Evening
- Mr. Dan McNeff, "Understanding Legal Entities: The Key to Asset/Lawsuit Protection and Tax Reduction."**
SPONSOR: Heraeus Kulzer
Grand Valley Inn Restaurant in Fallston (724-843-9000- directions only)
- January 14, 2010
Thursday Evening
- Dr. Wayne Roccia, "Sleep apnea- Oral and Maxillofacial Surgical Considerations"**
SPONSOR: Mr. Douglas W Graybeal Brennan Financial Group, "Investing in Uncertain Times"
Harold's Restaurant in Hopewell (724-375-8892- directions only)
- February 18, 2010
Thursday Evening
- Ms. Jennifer Allen, "Soft Tissue Diode Lasers"**
SPONSOR: Ivoclar Vivadent- 3 hours
Shadow Lakes Country Club in Aliquippa (724-375-5511- directions only)
- March 18, 2010
Thursday Evening
- Dr. Ed Narcisi, "An Overview of Anterior Esthetics"**
SPONSOR: Kerr, Sybron Dental Specialties
Shadow Lakes Country Club in Aliquippa (724-375-5511- directions only)
- April 15, 2010
Thursday Evening
- Dr. Mike Ban, "Oral Pathology: an update for the General Practitioner"**
SPONSOR: Benco Dental
Grand Valley Inn Restaurant in Fallston (724-843-9000- directions only)
- May 20, 2010
Thursday Evening
- Dr. George Hadeed, "Updates in Prosthodontics"**
SPONSOR: Astra Implant Co.
JW Halls Restaurant, Hopewell Township (724-375-6860- directions only)
- June, 2010
Wednesday all day
- Golf Outing and Staff CE Lecture at New Castle Country Club- details to follow**
SPONSORS: Cascade Dental Products, MRS Physical Therapy

Meetings begin with cocktails/ socializing at 6:30 PM with Dinner and Speakers to Follow

PDA Members course Fee: \$35, non-members \$45, Lecture only: \$25

***as voted on by membership at 9-08 business meeting**

If you are NOT on a call list and wish to attend any of our meetings please call David Spokane at 724-846-9666 one week prior to the meeting.

The Beaver Valley Dental Society

in cooperation with the Dental Society of Western Pennsylvania and The Academy of General Dentistry

2009 - 2010 Hygienist Schedule

****If you are not on Dr. Spokane's email list for Dental Hygienists, please call his office at 724-846-9666 and leave your email address****

October 20, 2009
Tuesday Evening

Dr. David Spokane- Treatment of the Class III Malocclusion

SPONSOR: Invisalign/ Align Technology

Holiday Inn, Beaver Falls, (724-846-3700- directions only)

The Class III malocclusion is one of the most challenging types of bites for orthodontist to correct. Dr. Spokane will review the diagnosis of the Class III malocclusion from dental, skeletal, and facial perspectives. He will address the various treatment modalities available to treat this type of bite including: pre-school orthopedic therapy, mixed dentition treatment, adult Class III treatment with and without surgery. The attendee will be better prepared to discuss the importance of early detection and treatment of the Class III malocclusion with their patients and their parents.

November 12, 2009
Thursday Evening
with dentists

Dr. Steven Steinberg, "Understanding & Managing dental caries: a modern approach"

SPONSOR: Care Credit, Brasseler

Shadow Lakes Country Club in Aliquippa (724-375-5511- directions only)

Please see the course description on the attached page.

March 9, 2010

Linda Blackiston "What's Sex Got to Do With It?- Understanding the Mythology of Gender Biology"

SPONSOR: Philips Sonicare

Holiday Inn, Beaver Falls, (724-846-3700- directions only)

Tuesday Evening

Do you consider gender biology when assessing your patients? When it comes to health, there are many crucial health differences between men and women. Research indicates that gender differences may need to be considered to achieve positive oral and systemic health results.

During this course participants will explore overall health and oral health concerns for each gender and the importance of translating that knowledge into improved practice and therapies.

Course Topic Selections: Science of Gender Biology, Menopause, Osteoporosis, Male health issues, Cardiovascular Diseases, and Other Conditions.

May 21, 2010
Friday all day

Dianne Glasscoe Watterson, MBA, CEO "Care Considerations and the Periodontal Patient"

SPONSORS: Designs for Vision, Ultradent, Colgate, and more to come!!

Holiday Inn, Beaver Falls, (724-846-3700- directions only)

Please see the course description on the attached page.

Care Considerations and the Periodontal Patient

By Dianne Glasscoe Watterson, RDH, BS, MBA

Course Description – Excellence in patient care should be the goal of the consummate dental hygienist/dentist when treating the periodontal patient non-surgically. This course examines the latest information related to patient care protocol, including (but not limited to) systemic factors related to periodontal disease, patient classification, blood pressure guidelines, pain control modalities, and treatment sequence and protocol with a 'jeopardy style' review.

Course Objectives – Upon completion of this course, the attendee should be able to:

- 1) Understand many of the links between the oral and systemic disease.
- 2) Classify the periodontal patient through expanded classification guidelines.
- 3) Implement effective sequencing protocol for the periodontal patient.
- 4) Understand the role of inflammation.
- 5) Use proper pain control techniques.
- 6) Understand the new pre-medication guidelines.
- 7) Discuss the usage of intrapocket therapies.
- 8) Implement enhanced verbal skills with patients.
- 9) Ascertain when referral to a specialist is needed.

Course Benefits - In order to provide the patient with optimum care, staying current regarding technology and treatment modalities is very important for the dental professional. This course will provide the clinician with up-to-date, evidence-based information related to comprehensive care for the hygiene patient.

Course Topics:

1. Basic considerations of the periodontal patient
 - a. Homecare
 - b. Susceptibility
 - c. Systemic disease
 - d. Fear
 - e. Lifestyle factors
 - f. Local oral factors
2. Classification systems
 - a. Suggestions for the gingivitis patient
 - b. Non-surgical and maintenance coding
3. New pre-medication guidelines
 - a. Implications for clinicians and patients
4. Components of intraoral/extraoral exam
5. Pain control measures
6. Step-by-step debridement process
 - a. Use of power scalers
 - b. Use of fluoride varnish
 - c. Scaling considerations
 - d. The role of calculus
7. The inflammatory response
 - a. Use of low-dose doxycycline
 - b. Use of amoxicillin/metronidazole
8. Recommended armamentarium
 - a. Power scalers
 - b. Magnification
 - c. Instruments
 - d. Patient aids to treatment
9. Communication tips
 - a. Appropriate analogies
 - b. Dealing with difficult situations

2009 - 2010 Meeting Highlights:

November 12, 2009

Dr. Steven Steinberg, "Understanding & Managing dental caries: a modern approach"
****Joint Meeting with Dentists and Hygienists****

Dr. Steven Steinberg is an energetic and experienced dental speaker who is expert on the modern management of dental caries. He will show the attendee how to implement the modern medical model of caries treatments into your dental practice. Managing dental caries is of primary importance in dentistry. Caries treatment along with periodontal disease treatment consumes the majority of time in a dental practice. There have been many changes in our approach to caries over the last 5-10 years. Caries speakers are essential for staying current with this information. Using a medical model for the treatment of caries disease is rapidly becoming the new paradigm of treatment. As this treatment becomes the standard of care, there are medical-legal reasons for professionals staying current in Cariology.

In June 1993 JADA published an article by Maxwell Anderson entitled Modern Management of Dental Caries: The Cutting Edge Is Not The Dental Bur. Much of what we do today is based on that article and the research it reviews. Researchers across the world such as John Featherstone, George Stookey, Domenick Zero, Amid Ismail, James Bader, Nigel Pitts, Edwina Kidd, Jason Tanzer, Ernest Newbrun, Page Caufield, Norman Tinanoff, Kenneth Anusavice, D. Banting, K. Ekstrand, C.Longbottom, ten Bosch, A. Lussi and B. Nyvad have all done work supporting this paradigm. The NIH Consensus Development Conference on Diagnosis and Management of Dental Caries throughout Life in March of 2001 supports this model. The World Congress of Minimally Invasive Dentistry also supports this model.

Dr. Steinberg helped coordinate the University of Illinois College of Dentistry online continuing education course in Cariology and he has developed treatment protocols currently being used in several dental school clinics. He serves as the connection between the researchers and the practicing dentist. Dentists and staff can learn how to treat caries disease and not just carious lesions. Evidence based studies show that treating caries disease only surgically (restorations) has little effect on the imbalance caused by the disease process.

"Without a doubt Dr. Steinberg's lecture was the single most important, most impacting, knowledge inspiring, paradigm shattering experience of my 17 years in dentistry."

- Len B. Gerken, DMD said as an introduction to Dr. Steinberg's seminar at the World Congress of Minimally Invasive Dentistry

"Dr. Steven Steinberg is a leader in the fields of minimally invasive dentistry and cariology. Every dentist should run to hear Dr. Steinberg's presentation as it directly relates to the health of their patients and the health of their practice."

- Louis Malmacher DDS MAGD

"Dr. Steinberg's enthusiasm for teaching this important topic and his unusual speaking ability make his seminars both interesting and informative. I recommend that those interested in delivering high quality esthetic dentistry attend his programs."

- Ross W. Nash

"Dr. Steinberg is truly on the cutting edge of changing the profession's approach to caries and its therapy. I sincerely thank him for his superb efforts!"

- Jim Bergschneider D.D.S.

December 10, 2009
Thursday Evening

Mr. Dan McNeff, "Understanding Legal Entities:
The Key to Asset/Lawsuit Protection and Tax Reduction."

1. Objectives
 - A. Show proper administrative entities for business/practice
 - B. Introduce entities that will help to reduce income taxes
 - C. Introduce entities that will eliminate probate, income and capital gains taxes
 - D. Show how to protect 100% of personal and business assets from lawsuits
2. Administrative Entities
 - A. Clear up myths about administrative entities
 - B. Identify the strengths and values of particular administrative entities
 - C. Show the advantages of the "C" Corporation
3. Probate
 - A. Identify the reasons to avoid probate
 - B. Show how the living trust works to eliminate probate and how to make it effective
4. The Charitable Remainder Trust and The Family Foundation
 - A. Identify the advantages of the CRT
 - B. Show how to set up the CRT
 - C. Show how to take advantage of the benefits of the CRT
 - D. Show to convert the CRT to a Family Foundation
 - E. Show the advantages of the Family Foundation
5. Identify Lawsuit Epidemic
 - A. Show the effect of the lawsuit epidemic
 - B. Identify the sources of lawsuits specific to your profession
6. Lawsuit Protection
 - A. Introduce The Family Limited Partnership
 - B. How the FLP works
 - C. The tax advantages of the FLP
 - D. The charging Order
 - E. The need for multiple FLP's
7. Creating a Plan
 - A. Case Study
 - B. Review of entity purposes
8. Conclusion
 - A. Finding the proper professional
 - B. Introduce our program
9. Q&A
